# PARTY

## HOW IT ALL WORKS

**Before the party:** You need to invite your guests. Please check with the parents/carers whether or not the player has an allergies. If you end up with more then you booked in for, please contact us asap, so we can ensure we have the party bags made up and enough food for them too.

Don't forget you will need a cake and candles, we will supply everything else.

**On the day of the party:** Please can you report to reception upon arrival. We do not need you or your guests on site more then 5 minutes before your booked time.

**Upon Arrival:** We will greet you at reception. We will introduce you to your party host, who will run the party for you. They will recover the birthday cake and candles from you, placing it in the kitchen till it is required. They will then show you to your booths, run through how the consoles will work and get them setup so the players can use them straight away.

**Once all your guests are here:** The party host will take the food orders from the players. The options are; Hamburger, Cheeseburger, Chickenburger, Chicken Nuggets, Veggieburger or Hot Dog.. The players will be asked whether or they have any allergens. The host will check that what they have ordered is ok to have. Any concerns, we will come to you to make the final decision. We ask that the players do not change position in the booths as they position will help to build up our fire register for the party.

## PARTY

### HOW IT ALL WORKS

The players will get about 15 minutes to play on the consoles before we will get them into briefing for the lasertag. They will then do game 1.

The games last again about 15 minutes. They will then get another 15-minute console time. This is followed by Game 2. Upon returning to the booths, the food they selected should be in their place for them. They will et time to finish their food, have some more console time. Just before they go into their 3<sup>rd</sup> and final game, the part host will bring the cake out, with the candles lit and get the kids singing "happy Birthday". The players will go up and play their game. During the game the party host will get the cake cut and put into the party bags we provide.

Once this completed, the party bags and the remainder of the cake will be returned to you.

The party host will complete the tab, collect the console controllers and clear the Booths of plates, cups and any rubbish.

They will then ask you to complete the full payment (Returning or adjusting the damage deposit in this process).

**Lastly:** Hopefully you and the party guests have had a good time, if you choose to recognize the level of service you have received by giving a tip to the team, it is always appreciated. Additionally, constructive feedback is also welcomed too.

THANK YOU FOR HAVING YOUR  
IMPORTANT EVENT WITH US.
